WHO WE ARE

Holder Healthcare is a leading independent healthcare provider and charity based in Sussex, delivering high quality care across a range of treatments and services for both NHS and private patients. From our specialist orthopaedic hospital in Crowborough, The Holder Centre, and outreach clinics in Seaford and Eastbourne we provide musculoskeletal services including elective orthopaedic surgery and physiotherapy and demonstrate significant improvements in outcomes for our patients. The Holder Centre has been rated outstanding by the Care Quality Commission.

For more information about our consultants and the services we offer, please visit holderhealthcare.co.uk or call us on 01892 665577.

Please see page 7 for referral information.

PATIENT REFERRALS

NHS Patients

Patient Choice means that patients have a right to choose where they receive their NHS treatment and includes independent hospitals such as The Horder Centre. Horder Healthcare is a qualified provider and offers NHS services without charge to the patient. If referred for treatment patients can book online via the NHS e-Referral Service (eRS) using the unique booking reference number (UBRN) provided by their GP.

Visit www.nhs.uk to book via eRS.

Patients can select a consultant as well as time and date of their appointment. Alternatively, GPs can book appointments on the behalf of the patient in the same way.

Upon receiving the electronic referral The Horder Centre will contact the patient directly with details of their appointment.

Call our Bookings team on **01892 600804** if you have any queries. Please note, for eRS, any 'slot issue' bookings are dealt with daily and our bookings team will contact the GP practices directly to resolve these.

Insured patients

Patients with private medical insurance who would like to choose The Horder Centre for their treatment will need to check with their insurer that they are covered for the treatment they require, including outpatient appointments. We are recognised by the majority of medical insurance companies. If you experience any issues accessing our services via your insurance company, please do not hesitate to contact us so that we may provide assistance.

Self pay patients

Patients can self pay which means paying for their own procedures, treatments and services themselves following an initial consultation. They will get a tailored, inclusive price for treatment based on their condition. Initial consultation and pre-op diagnostics are not included in the treatment package price.

Horder Healthcare works with Zebra Health Finance to potentially remove a large barrier preventing patients from receiving treatment. We currently offer representative 0% APR up to six months. Terms and conditions apply (www.horderhealthcare.co.uk).

Call **01892 600865** or email pp@horder.co.uk to contact our dedicated private patient pathway team.
